PREFACE

1992 DEER HUNTING AND HARVEST REPORT

Survey Approach

Resident and nonresident deer license holder samples were randomly selected from a population of all resident and nonresident deer license holders in our license database. Deer hunting and harvest data were acquired via telephone for resident license holders and via a mail survey for nonresidents.

Definitions

TOTAL HUNTERS.....The number of hunters who hunted one or more days
TOTAL HUNTER DAYS...Sum of whole days or portions of days hunted
SUCCESSFUL HUNTERS..The number of hunters who killed one or more deer
PERCENT SUCCESS.....The number of successful hunters divided by the
total number of hunters and multiplied times 100
RSDNT.....A symbol for resident
NRSDNT.....A symbol for nonresident
ANTL-.....A symbol for antlerless
ANTL+.....A symbol for antlered
UNKWN.....A symbol for unknown used to designate unknown sex
GEN A.....An abbreviation for general deer "A" license,
including those deer "A" licenses included with the
resident Sportsman's license and nonresident Big
Game Combination and Deer Combination licenses
GEN MR WT.....An abbreviation for general, Multi-region,
Antlerless Whitetail Deer B license
GEN MR MD.....An abbreviation for general, Multi-region,
Antlerless Mule Deer B license
SP.....An abbreviation for special license or permit
UNKNOWN.....A license category where the license used to take
the deer was unknown
LOWER.....Lower confidence limit at a level of confidence of
80 percent
POINT.....The estimated value
UPPER.....Upper confidence limit at a level of confidence of
80 percent

Explanations

The deer hunting and harvest statistics are estimates made from a sample of 55,634 questionnaires representing about 28 percent of all 200,084 deer license holders. Confidence-interval estimates are given for resident and nonresident combined hunting statistics and for mule deer, whitetail, and combined deer harvest statistics. Confidence intervals are given at the 80 percent confidence level, meaning that the actual value will be between the lower and upper limit in four out of five cases. The relative precision of the estimate increases with the size of the estimate. Regional estimates have greater relative precision than district estimates and the statewide estimates have the greatest relative precision.

(CONTINUED)

PREFACE (CONTINUED)

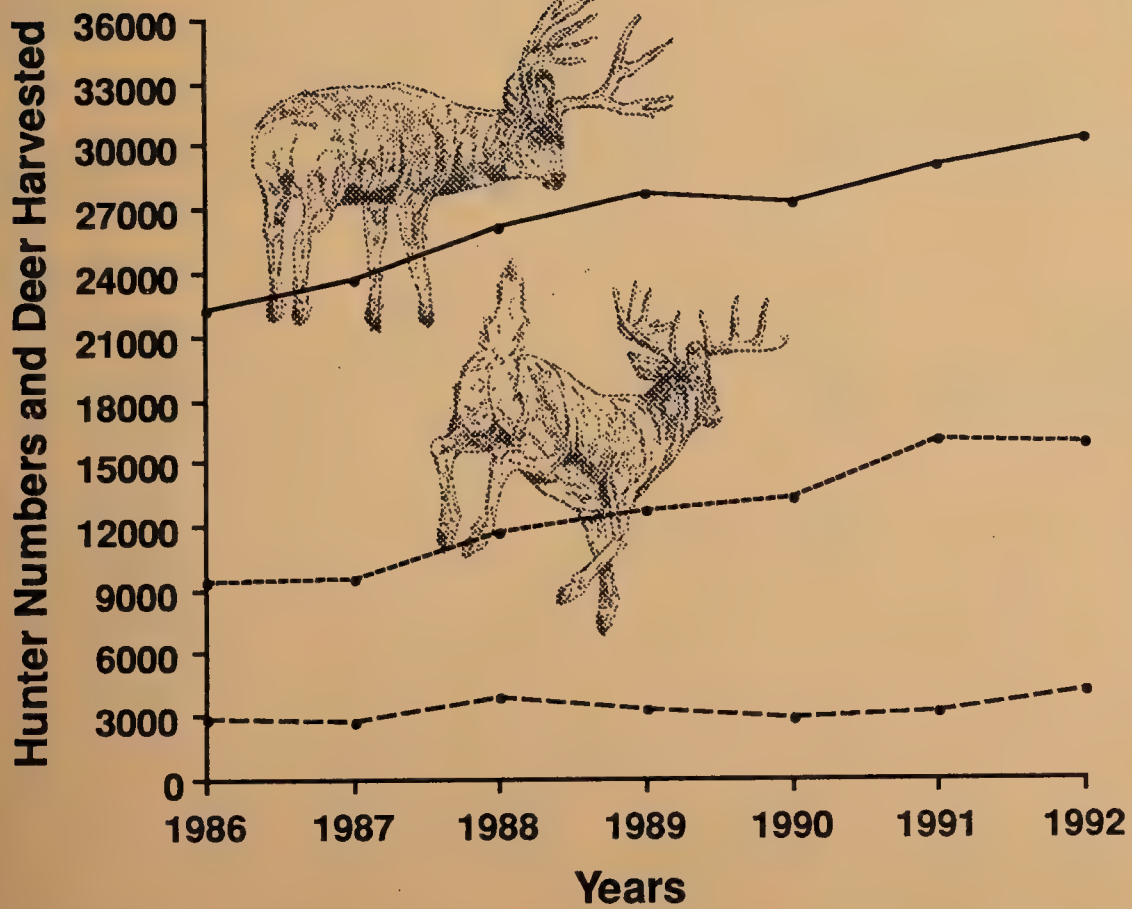

All valid response data are used in the estimates even when some data fields are missing. This is the reason for the various unknown categories given in the report. The unknown license type given in the harvest sections is used to represent deer kills which could not be associated with a particular license/season type. Hunting or harvest activity in an unknown or invalid hunting district within a valid region is represented as "RXX" where R is the regional number 1 through 7. An unknown district in an unknown region is represented as "XXX". The unknown district or region activities are still incorporated into the regional or state totals respectively.

Several hunting districts from regions three and four were combined beginning in 1992 to create region eight. Due to the creation of region eight, hunting and harvest trend data for regions three and four are not comparable between years before and after the creation of region eight.

1992 DEER TIME PERIOD OF KILL REPORT

JUNE 3, 1993

PREFACE

1992 DEER TIME PERIOD OF KILL REPORT

Survey Approach

Resident and nonresident deer license holder samples were randomly selected from a population of all resident and nonresident deer license holders in our license database. Deer hunting and harvest data were acquired via telephone for resident license holders and via a mail survey for nonresidents.

Definitions

UNKWN.....A symbol for unknown used to designate unknown time period of kill

GEN A.....An abbreviation for general deer "A" license, including those deer "A" licenses included with the resident Sportsman's license and nonresident Big Game Combination and Deer Combination licenses

GEN MR WT.....An abbreviation for general, Multi-region, Antlerless Whitetail Deer B license

GEN MR MD.....An abbreviation for general, Multi-region, Antlerless Mule Deer B license

SP.....An abbreviation for special license or permit

UNKNOWN.....A license category where the license used to take the deer was unknown

Explanations

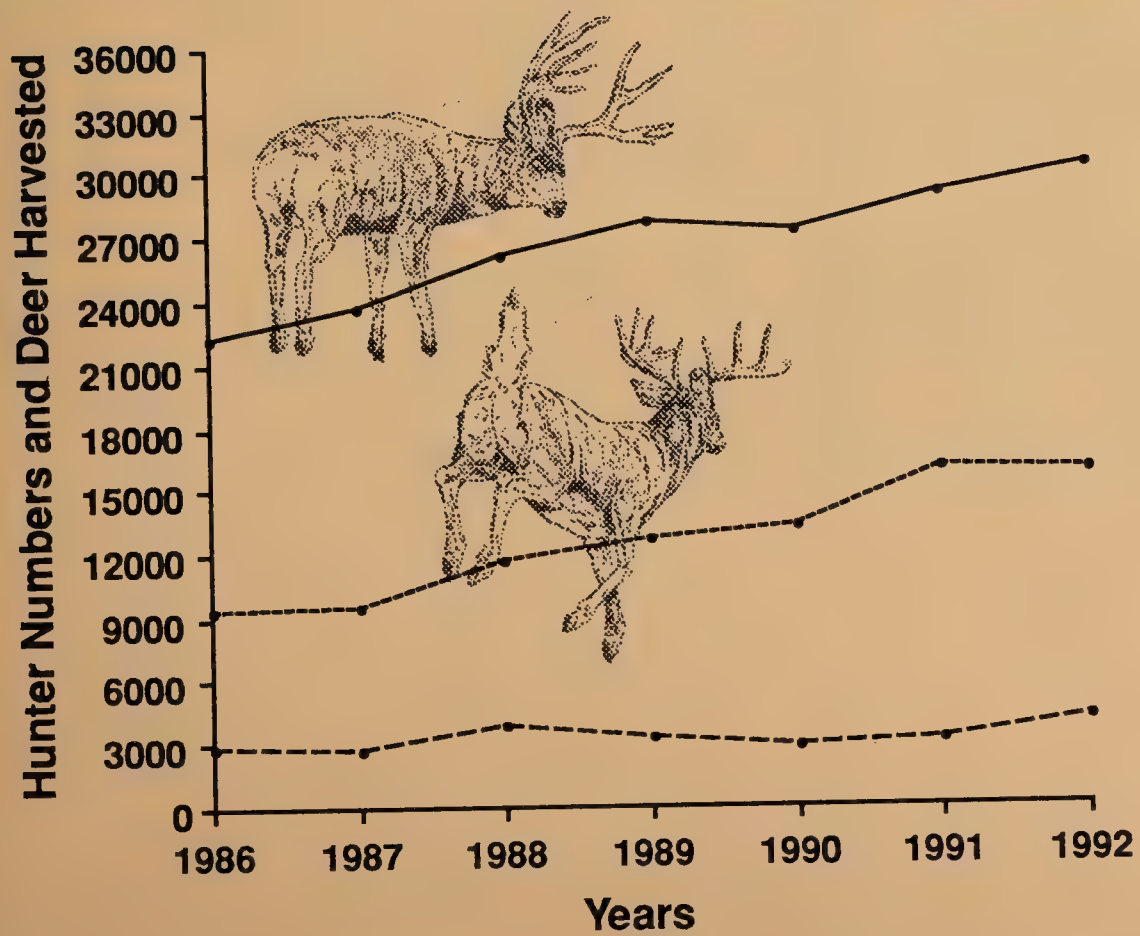

The deer time period of kill statistics are from a sample of 55,634 questionnaires representing about 28 percent of all 200,084 deer license holders. No expansions or estimates are given. The percentages are from the actual sample data collected. Sample number killed in each license category is given on the right side of each page. To obtain estimates of the actual number killed in a given time period, the percentages can be applied to the kill statistics in the hunting and harvest section of this report.

All valid response data are used in the analyses even when some data fields are missing. This is the reason for the various unknown categories given in the report. The unknown license type given in the harvest sections is used to represent deer kills which could not be associated with a particular license/season type. Hunting or harvest activity in an unknown or invalid hunting district within a valid region is represented as "RXX" where R is the regional number 1 through 7. An unknown district in an unknown region is represented as "XXX". The unknown district or region activities are still incorporated into the regional or state totals respectively.

ANTLER STATISTICS

PREFACE

1992 DEER ANTLER STATISTICS

Survey Approach

Resident and nonresident deer license holder samples were randomly selected from a population of all resident and nonresident deer license holders in our license database. Deer hunting and harvest data were acquired via telephone for resident license holders and via a mail survey for nonresidents.

Definitions

ANTLER TYPE...The number of points on each side
FREQUENCY.....The number of occurrences of the given antler type in the
 given hunting unit within the sample data obtained
PERCENT.....The percentage of the total represented by each frequency

Explanations

The deer antler point statistics are from a sample of 55,634 questionnaires representing about 28 percent of all 200,084 deer license holders. No expansions or estimates are given. The frequencies and percentages are from the actual sample data collected. Total sample number killed in each hunting unit is given at the bottom of the frequency column. To obtain estimates of the actual number killed with a particular antler point count the percentages can be applied to the kill statistics for bucks in the hunting and harvest section of this report.

All valid response data are used in the analyses even when some data fields are missing. This is the reason for the unknown hunting unit categories given in the report. Kills in an unknown or invalid hunting district within a valid region are represented as "RXX" where R is the regional number 1 through 7. An unknown district in an unknown region is represented as "XXX". The unknown district or region activities are still incorporated into the regional or state totals respectively.

LICENSES & GENERAL INFORMATION

- Sportspersons may purchase one deer A and one or more deer B licenses. There is no requirement regarding the order of obtaining nor the order of filling either license.
- Sportspersons are limited to one deer A license per year, which is included in the resident's Sportperson's License, the nonresident Big Game Combination License and the nonresident Deer Combination License.
- Nonresident Deer Combination License holders that are landowner sponsored are reminded the license entitles them to hunt deer and upland game birds only on the land owned by the landowner sponsor. This does not include leased or public land. The license is valid statewide for fishing. A general upland game bird license would be required to hunt statewide for upland game birds.
- Sportspersons may hold and fill more than one deer B license, subject to all specifications on the license issued. Opportunities to obtain a deer B license(s) include:
 1. Special drawings.
 2. Over-the-counter purchase from Fish, Wildlife and Parks offices and license agents.

SPECIAL SEASONS & TENTATIVE QUOTAS

- Application must be postmarked by the U.S. Postal Service no later than June 1.
- Both resident and nonresident sportspersons are eligible to apply for the following licenses and permits awarded through the special drawings. Nonresidents are limited to, but not guaranteed, 10 percent of a district quota.
- Nonresidents must hold a Big Game Combination License or a Deer Combination License to be eligible to apply for a special deer permit.
- Sportspersons must hold a deer A license to use a deer permit awarded through the special drawings.
- Holders of a landowner sponsored Deer Combination License may apply for a special deer permit only in the hunting district in which they are authorized to hunt deer.
- A special deer permit is not a second license. All permits are issued through the special license and permit drawings and must be used in conjunction with a valid deer A license. Hunting districts offering a deer permit are: 240-01, 291-01, 441-01, 455-01, 530-01, and 650. **Exception:** in hunting district 260-03, the deer permit must be used with a deer B license issued for hunting district 260-03. See page 18.
- Because some licenses and permits are valid only in a portion or portions of specified hunting districts, sportspersons should carefully note the district choice for which they are applying. A copy of the legal descriptions for "portion of district" areas is available at any Fish, Wildlife and Parks Office or by mail from the Helena Headquarters, Wildlife Division, 1420 East Sixth Avenue, Helena, MT 59620.

Landowner Preference

- Montana landowners who qualify may receive preference in the deer B licenses and/or deer permits special drawings. To qualify, one must be the owner of record or be contracting to purchase at least 160 acres of land within the hunting district applied for. If the license is valid for a portion of the hunting district only, the landowner must own land within that portion. The land must be used primarily for agricultural purposes.
- Preference is available to resident and nonresident landowners and can be designated to a blood or marriage related individual or employed ranch manager. Only one person may use or designate preference in a partnership or corporation.
